

RV TANK CLEANING (SPECIAL SOLUTION)

Pour a 40 ounce bottle of Pine-Sol (any scent works) into a wide-mouth 1-gallon container. Refill the 40 oz Pine-Sol bottle with water, then add this water to the 1-gallon jug. Stir this mixture. Next slowly add ½ cup of Calgon Bath Oil Beads. Be sure to dilute the Pine-Sol solution before adding the Bath Beads!! Then shake/stir it well.

Prime your Black Tank with at least 2-3 gallons of water, then add 1 cup of this Pine-Sol solution.

For Gray Tanks use ½ cup of this solution.
